IMRANE JALAL MANSOUR

ENGINEERING STUDENT | COMPUTER SCIENCE & DIGITAL TECHNOLOGIES

Toulouse, France | imranejalal821@gmail.com

imranejalal.github.io LinkedIn GitHub

PROFILE

First-year engineering student at ENSEEIHT, following two years of scientific preparatory classes in Morocco. Interested in software development, cybersecurity and data. My Arduino and PID control project combines programming, electronics and experimentation.

SKILLS

Programming

Python, Ada, SQL
Arduino (C/C++)

Computing and visualisation

MATLAB, NumPy, Matplotlib

Systems and tools

Linux, Visual Studio Code, Why3

Electronics

Arduino, Tinkercad simulation, PID control

LANGUAGES

French: fluent

English: B2

Arabic: spoken

Spanish: A2

STRENGTHS

Rigour and organisation
Logical reasoning
Curiosity and listening
Perseverance

INTERESTS

Software development
Cybersecurity
Artificial intelligence
Data science

EDUCATION

ENSEEIHT - Toulouse INP

2026 - present | Toulouse, France

Engineering programme, year 1
Computer Science and Digital Technologies

Lycée Moulay Youssef

2024 - 2026 | Rabat, Morocco

Scientific preparatory classes (CPGE), MP stream

ACADEMIC PROJECT

TIPE | Temperature control

Arduino · PID · C/C++ · Tinkercad

- Designed an Arduino-based system to monitor and control room temperature.
- Programmed and integrated sensors, an LCD display, an alarm and cooling motors.
- Simulated the system in Tinkercad, conducted experiments and modelled thermal behaviour with a PID controller.

Technical presentation: 66 pages (in French)

ACHIEVEMENTS

CNC - Moroccan national entrance examination
Ranked **186th out of 3,096 candidates**.

Math&Maroc Competition (MMC)
Honourable Mention - summer 2025.
